Watershed

Our school is privileged to partner with USC Upstate Watershed Ecology Center to bring in hands on science lessons that complement our standards and curriculum. They will visit our school 9 times throughout the school year and our first session will be at the end of September. **The total cost for the Watershed Ecology program for the school year is \$9 per child. We ask that you send this money to school in an envelope labeled with your child's name and "Watershed" by Wednesday, September 19th to ensure that your child is able to attend our first session.** If you would be willing to "round up" to \$10, we can use that donation to contribute to students that may be unable to pay. We look forward to some awesome learning experiences with the Watershed Ecology Center. Please let us know if you have any questions or concerns.

Transportation

Please be reminded that any transportation changes should be communicated in writing. (Dojo messages and/or Email are not permitted for transportation changes, as we may be absent and unable to communicate them with the substitute.) Also remind your students to turn in their transportation notes **first thing in the morning** so that we can send them to the office for approval!

Don't forget to label binder tabs:
