

mountain

An elevation higher
than a hill

volcano

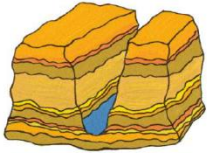

A vent in the Earth's crust from
which melted or hot rock and
steam come out

ocean

The whole body of salt water that
covers nearly three fourths of
the Earth's surface

canyon

A deep narrow valley with steep
sides and often a stream running
through it

Glacier

A large body of ice moving slowly
down a slope or valley or
spreading outward on a land

pond

A body of water usually
smaller than a lake

island

An area of land
surrounded by water

lake

A large inland body of
standing water

River

A large natural stream of water
flowing in a channel to the sea,
lake or other body of water

cave

A natural underground hollow or passage

sea

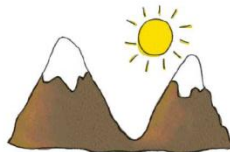

A large body of salt water that is often connected to an ocean

plateau

A broad flat area of high land

valley

An area of lowland between hills or mountains

stream

Small, flowing bodies of fresh water that flow into rivers.
