Content Connection:

In Math & Science: We are continuing with our study about slow and fast processes that change the earth's surface. In math, we are still working with fractions focusing on mixed numbers. We will also work with mixed numbers as repetitions of unit fractions on a number line.

In ELA & Social Studies: we are identifying problems and solutions in a text, working with quotation marks, using context clues, answering literal and inferential questions and short answer questions.

In Read 180 Workshop: We are reading various text on immigrants and learning how to sequence events. In independent Reading, they are reading books on their levels and completing graphic organizers. In software, they are working in each zone.
