Content Connection:

In Math & Science: In science, we will illustrate and sequence life cycles of plants and animals. In math, we are still working with fractions focusing on mixed numbers. We will also work with mixed numbers as repetitions of unit fractions on a number line.

In ELA & Social Studies: We are working on simple, compound, and complex sentences, author's purpose, context clues, and figurative language. We will also begin working on text dependent writing. In social studies, we are studying slavery in the Carolina colony.

In Read 180 Workshop: We are reading various text on immigrants and learning how to sequence events. In independent Reading, they are reading books on their level and completing graphic organizers. In software, they are working in each zone.
