

# data folders

Dear Parent(s) & Guardian(s),

Please use this letter to help you better understand the contents of your child's data folder and our system of grading in 3<sup>rd</sup> grade.

a	90-100
b	80-89
c	70-79
d	60-69
f	below 60

On your child's interim, you will find their average for each subject area. The grading scale to the left explains the letter grade assignment, as determined by the SC department of education. At the end of each 9 weeks period, we will host an awards day and students with all A's will be recognized for the A Honor Roll and students with all A's and B's will be recognized for the B Honor Roll.

You will also find a record of pre and post tests for our math standards. The scores for the pre-test are not recorded in the gradebook, so please do not be alarmed by these grades. This is before instruction and serves as baseline data for our small groups and instruction. After each unit, we will send home scores for their pre and post tests for you to sign off on.

	approaching expectations	meeting expectations	exceeding expectations
math	<204	204-210	211+
reading	<204	204-208	209+

Math and Reading MAP scores are recorded in the front and back of your child's data folder. The 2017 Spring scores represent your child's score from 2<sup>nd</sup> grade. We are currently in the 2017 Fall testing window and will record student scores as they finish testing. We have also used your child's percentile ranking to identify goals for each testing window. The conversion chart above can be used to determine the predicted category for their SC Ready test results at the end of the year.

Please sign your child's Interim and return it and their data folder the next day.

Thanks,  
Jessica Burnette
