TUESDAY

1) Susan has 45 hats in 10 cupboards. Her friends borrowed some of the hats. Nicky borrowed 3 hats and Shelly borrowed 2 hats. If Susan divided the remaining hats into the cupboards, how many hats would be in each cupboard?

2) Kevin has 280 erasers stored in boxes. There are 40 boxes. The erasers are equally distributed in the boxes. He distributed one box among students. The first student got 3 erasers; the second student got 2 erasers. How many erasers were left in that box?
