Content Connections

Math & Science: In Math students will represent multiplication using arrays, equal groups, repeated addition, and skip counting. In science, students will explain how electricity and magnetism can be transferred and transformed.

ELA & Social Studies: Students will be able to identify the point of view of a story, identify spelling patterns in words, and write a personal narrative. In Social Studies, students will compare the culture, governance, and physical environment of the Cherokee, Catawba, and Yemassee Native Americans.

In Read 180, students will participate in independent reading, software, and small group. In small group, we will target specific reading/writing skills based on the needs of the group.
