

## 2015-2016 Science Fair Information Packet

Are you interested in entering the WES Science Fair? Well if you are this packet will help you along the way. The packet contains:

1. Project ideas
2. Scientific Method steps
3. Sample science fair board
4. Science Fair rules

The Science Fair is not required, but will be an extra credit Science grade for those who enter. Projects are due February 16, 2016. Projects will be judged that afternoon and viewing will take place February 17, 2016 from 9-1 at WES. If you enter, your project may win and you could go to the Regional Science Fair at USC-Upstate! Thank you for your interest in the science fair. We look forward to viewing your project.

\*\*\* This is a great website for more project ideas.
