

Core Bites Study Guide #8

Multiply:

$70 \times 3 = \underline{\quad}$

$70 \times 9 = \underline{\quad}$

$9 \times 4 = \underline{\quad}$

$40 \times 9 = \underline{\quad}$

$90 \times 7 = \underline{\quad}$

$4 \times 9 = \underline{\quad}$

$20 \times 8 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

All pentagons have sides.

All quadrilaterals have sides.

All have 4 congruent sides.

Which is the best estimate for the weight of Coach Addis?

(a) 125 kilograms

(b) 125 grams

(c) 125 milligrams

Which is the best estimate for the weight of a cell phone?

(a) 2 grams

(b) 200,000 milligrams

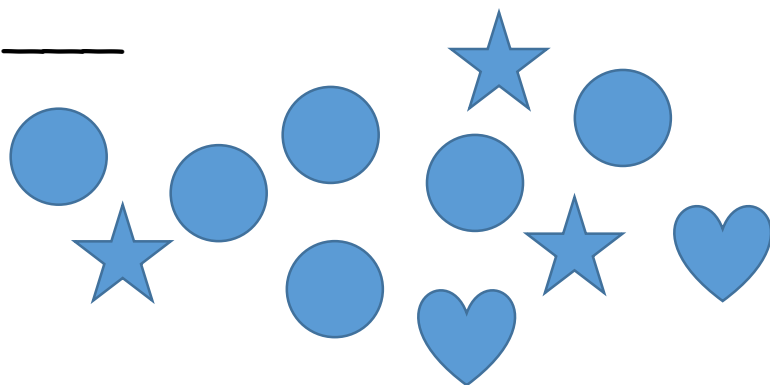

(c) 200 kilograms

Continue the patterns:

60, 54, 48, 42, , ,

99, 90, 81, 72, 63, , , ,

What fraction of the set is not circles?

What fraction is represented by the number line model?
